WM Ercanbrack Co.
WT Transportation

Projects will include installing auxiliary power units, emission control devices, and aerodynamic kits on long-haul trucks; installing engine pre-heaters on school buses; replacing fourteen non-road tractors, a dozer, two gensets, and an on-road tractor.

Thank you to the Associated General Contractors of Utah, Utah Department of Agriculture, Utah State University, Utah Trucking Association, and the State Office of Education for their guidance and support on this project.

To be considered for future projects, submit an [application](#) to [Lisa Burr](#).
