

**AUTHORIZATION TO PROCEED:
FIVE-YEAR NOTICE OF REVIEW AND STATEMENT OF CONTINUATION
PRESENTED TO THE DRINKING WATER BOARD
February 26, 2015**

Utah Code Title 63G Chapter 3 Part 3 Section 305 requires each government agency to review each of its rules within five years after the rule's original effective date or within five years after filing the last five-year review. The Division last filed Five-Year Review Notices for each of its rules in March 2010. To comply with this requirement the Division of Drinking Water must again submit a *Five-Year Notice of Review and Statement of Continuation* for each of its rules. If this Notice is not filed all unreviewed rules will expire, will be removed from the Utah Administrative Code and become unenforceable.

The following pages are the Five-Year Notice forms for the following Division Rules: R309-100, -105, -110, -115, -200, -205, -210, -215, -220, -225, -300, -305, -400, -405, -500, -505, -510, -511, -515, -520, -525, -530, -535, -540, -545, -550, -600, -605, -700, -705, and -800.

Upon Board authorization to proceed, these Notices will be signed by the Division Director and filed with the Division of Administrative Rules no later than March 16, 2015.

STAFF RECOMMENDATION:

Staff recommends the Drinking Water Board authorize staff to file the required *Five-Year Notice of Review and Statement of Continuation* for each of the referenced Division of Drinking Water rules with the Division of Administrative Rules.

Rule Title

2. Title of rule or section (catchline):
 Administration: Drinking Water Program

Rule Provisions

3. A concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule:
 Section 19-4-104 establishes the drinking water program, including the standards, construction, variances, operator certification, and orders.

Comment Summary

4. A summary of written comments received during and since the last five-year review of the rule from interested persons supporting or opposing the rule:
 No comments have been received either in support or opposing this rule.

Justification Information

5. A reasoned justification for continuation of the rule, including reasons why the agency disagrees with comments in opposition to the rule, if any:
 The continuation of this rule will ensure that the drinking water program administration is firmly established in the State of Utah. It defines a public water system, which are the systems that the Division of Drinking Water can and does regulate. It sets forth the requirements and conditions of sanitary surveys, gives a rating system to public water systems, and establishes the variances and exemptions.

Rule Title

2. Title of rule or section (catchline):
 Administration: General Responsibilities of Public Water Systems

Rule Provisions

3. A concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule:
 Section 19-4-104 gives the Drinking Water Board the authority to establish the general responsibilities of public drinking water systems in Utah. These responsibilities include variances or exemptions from monitoring, construction standards, operator certification, cross connection control, reporting, record maintenance, and emergencies.

Comment Summary

4. A summary of written comments received during and since the last five-year review of the rule from interested persons supporting or opposing the rule:
 No comments have been received either in support or opposing this rule.

Justification Information

5. A reasoned justification for continuation of the rule, including reasons why the agency disagrees with comments in opposition to the rule, if any:
 The continuation of this rule will ensure that public drinking water systems in Utah are adhering to the basic responsibilities of maintaining a safe drinking water system. This rule sets the foundation for the details in rules that follow, such as R309-600 which details the specifics of a source water protection program. This effort will greatly assist in protection the quality and safety of the drinking water from the source through vast distribution systems to the end consumer, the public.

Rule Provisions

3. A concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule:
 Subsection 19-4-104(4)(a) authorizes the Drinking Water Board to adopt and enforce standards and establish fees for certification of persons engaged in administering cross connection control programs of backflow prevention assembly training, repair, and maintenance testing.

Comment Summary

4. A summary of written comments received during and since the last five-year review of the rule from interested persons supporting or opposing the rule:
 No comments have been received either in support or opposing this rule.

Justification Information

5. A reasoned justification for continuation of the rule, including reasons why the agency disagrees with comments in opposition to the rule, if any:
 The continuation of this rule will ensure that the individuals involved in testing backflow valves, training testers, and those administering cross connection control programs are and remain competent to do so. This effort will greatly assist in protecting the quality and safety of the drinking water from the source through vast distribution systems to the end consumer, the public.

Rule Provisions

3. A concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule:
 Subsection 19-4-104(1)(a) authorizes the Drinking Water Board to make rules in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, that provide for monitoring, record-keeping and reporting of water quality; and Section 19-4-105 authorizes the Drinking Water Board to make rules more stringent than the corresponding federal regulations. Rule R309-400 prioritizes the rules made with authorization of Subsection 19-4-104(1)(a) and the priorities are set as more stringent than current federal regulations, as per Section 19-4-105.

Comment Summary

4. A summary of written comments received during and since the last five-year review of the rule from interested persons supporting or opposing the rule:
 No comments have been received either in support or opposing this rule.

Justification Information

5. A reasoned justification for continuation of the rule, including reasons why the agency disagrees with comments in opposition to the rule, if any:
 The continuation of this rule will ensure that public drinking water systems in Utah are prioritizing each issue that they must address and it shows the Division of Drinking Water which systems to prioritize for compliance. It is used to evaluate the water system's standard of operation and service delivered in compliance with the other rules encompassed in R309-100 through R309-705. This effort will greatly assist in protecting the quality and safety of the drinking water from the source through vast distribution systems to the end consumer, the public.

 This rule is promulgated by the Drinking Water Board as authorized by Title 19, Environmental Quality Code, Chapter 4, Safe Drinking Water Act, Subsection 104(1)(a)(ii) of the Utah Code. The Drinking Water Board may make rules governing the design, operation, and maintenance of public water systems.

Comment Summary

4. A summary of written comments received during and since the last five-year review of the rule from interested persons supporting or opposing the rule:
 In December of 2014, the Office of the Legislative Auditor General, submitted a report entitled "A Review of the Division of Drinking Water's Minimum Source Sizing Requirements" to the Utah State Legislature. The report commented directly upon the source size requirements included in R309-510. The report recommended that DDW reevaluate the minimum source sizing requirements and clarify the regulatory process for requesting a reduction in the minimum size of a source needed. It also confirmed the benefit of having a rule like R309-510 to regulate the size of the source needed by public water systems. There have been no other comments received in support or opposition of this rule.

Justification Information

5. A reasoned justification for continuation of the rule, including reasons why the agency disagrees with comments in opposition to the rule, if any:
 The continuation of this rule will ensure that new water sources, storage facilities, and distribution systems for public water systems will be sized to reliably provide an adequate supply of drinking water to the people of the state of Utah.

Rule Title

2. Title of rule or section (catchline):
 Facility Design and Operation: Miscellaneous Treatment Methods

Rule Provisions

3. A concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule:
 This rule is promulgated by the Drinking Water Board as authorized by Title 19, Environmental Quality Code, Chapter 4, Safe Drinking Water Act, Subsection 104(1)(a)(ii) of the Utah Code. The Drinking Water Board may make rules governing the design, operation, and maintenance of public water systems.

Comment Summary

4. A summary of written comments received during and since the last five-year review of the rule from interested persons supporting or opposing the rule:
 There have been no comments received in support or opposition of this rule.

Justification Information

5. A reasoned justification for continuation of the rule, including reasons why the agency disagrees with comments in opposition to the rule, if any:
 The continuation of this rule will ensure that new treatment systems, such as fluoridation, taste and odor control, stabilization, deionization, aeration, softening, iron and manganese control, and point-of-use and point-of-entry treatment devices, will be constructed to reliably provide an adequate supply of safe drinking water to the people of the state of Utah.

Rule Provisions				
3. A concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule:	Subsection 19-4-104(1)(a)(v) authorizes the Drinking Water Board to implement the Capacity Development Program and to govern the allotment of federal funds to public water systems to assist their compliance with federal 1996 Reauthorization of the Safe Drinking Water Act (SDWA).			
Comment Summary				
4. A summary of written comments received during and since the last five-year review of the rule from interested persons supporting or opposing the rule:	No comments have been received either supporting or opposing this rule.			
Justification Information				
5. A reasoned justification for continuation of the rule, including reasons why the agency disagrees with comments in opposition to the rule, if any:	The 1996 SDWA Amendments outlined the requirements of the Capacity Development Program. The Program mandates that states ensure that all new Community Water Systems and Non-Transient Non-Community Water Systems demonstrate adequate technical, managerial and financial capacity (capability) to comply with SDWA and the National Primary Drinking Water Regulations (NPDWR). In addition, states must ensure that existing drinking water systems demonstrate these capabilities before they can be awarded federal drinking water financial assistance from the federal Drinking Water State Revolving Fund (DWSRF) Program. Each year states receive a capitalization grant from Congress through USEPA to finance their individual DWSRF program. If a state does not demonstrate an acceptable Capacity Development Program 20 % of those grant funds may be withheld [SDWA 1452(a)(1)(G)(I)]. The State of Utah receives annual capitalization grants of as much as \$9 million for the DWSRF Program. Losing 20% (up to \$1.8 million) of this annual funding would seriously impair the Drinking Water Board's ability to provide financial assistance to communities for drinking water system infrastructure projects and could leave the public vulnerable to health and safety risks. These funds are also vital to the State's ability to administer the federal and Utah SDWA.
