Subject: Inspection of Thiokol Propulsion Class IIIb Landfills

Dear Mr. Curtis:

The three Class IIIb Landfill sites at the ATK Thiokol Propulsion Facility were inspected by Matt Sullivan of the Division of Solid and Hazardous Waste on May 1, 2008. We appreciate the assistance and cooperation of Mr. Blair Palmer during the inspection.

The landfill areas were well operated and found to be in compliance with the permit requirements that were reviewed during this inspection, as noted in the attached checklist. Litter was controlled and all three landfill sites looked well-maintained. Documents managed by Mr. Randy Fulmer were orderly and found to be in compliance with the permit.

Thank you for your efforts to maintain an orderly operation. Should you have any questions, please call Matt Sullivan or Ralph Bohn at (801) 538-6170.

Sincerely,

Original Document signed by Dennis R. Downs on 5/9/08

Dennis R. Downs, Executive Secretary
Utah Solid and Hazardous Waste Control Board
