Subject: Inspection of Cedar Valley Class VI Landfill

Dear Mr. Johnston:

The Cedar Valley Class VI Landfill was inspected on October 1, 2008 by Matt Sullivan of the Division of Solid and Hazardous Waste. We appreciate your assistance and that of the field crew during the inspection.

The landfill was well-operated and meeting the conditions of the Permit. The appearance of the site has improved since the last inspection with a reduction in wind blown litter. The working face was well confined and properly managed by your operators. Soil is being applied daily over the working face by the operator. Please ensure that sufficient intermediate soil cover is placed in areas of the landfill that are not currently active. Please continue to apply water to the roads as needed in order to help suppress fugitive dust. The visual aesthetics of the landfill from the road was good in terms of up-keep and litter control.

Thank you for your cooperation during this inspection. If you have any questions or need further information, please contact Matt Sullivan or Ralph Bohn at 801-538-6170.

Sincerely,

**Original Document signed by Dennis R. Downs on 10/29/08**

Dennis R. Downs, Executive Secretary  
Utah Solid and Hazardous Waste Control Board
