RE: Depleted Uranium Performance Assessment (DUPA)
Public Comment Period
Compliance Report, Condition 35
DRC Radioactive Materials License No. 2300249

Dear Mr. Rogers:

I am in receipt of the remaining documentation (dunes study, enhanced deep time analysis and Clive clay information) for the subject DUPA. Because this final documentation was about one month late, we will start the public comment period on April 13, 2015 instead of April 6, 2015 as originally planned. Public meetings will be scheduled in Tooele and Salt Lake City during the week of May 4, 2015. The public comment period will end on May 29, 2015 (providing for 45 days of public input).

The Director of the Division of Radiation Control intends to render a decision by July 1, 2015. If you have any questions, please call me at (801) 536-0215.

Sincerely,

Helge Gabert
Project Manager, DU Contract
Division of Solid and Hazardous Waste
