RE Request for Information (RFI) for Appendix I, *Organization* Submittal dated October 24, 2012 Radioactive Materials Licenses (RML) UT 2300249 & UT 2300478

Dear Mr. McCandless

In a letter dated October 24, 2012, EnergySolutions submitted to the Division of Radiation Control (DRC) a revision of Appendix I *Organization* (CD12-0275) of the UT 2300249 RML application. This document is also referenced in EnergySolutions' 11e (2) RML UT 2300478. The DRC has reviewed this submittal and requests the following information in order to complete the review of the proposed changes:

1. The individual who holds the position of Vice President of Clive (proposed change in title Vice President and General Manager, Clive Facility) has changed. Please provide the individual's qualifications.
2. In the proposed changes to Appendix I, the positions of Director of Mixed Waste Operations and Containerized Waste Facility (CWF) Manager have been deleted. Under the proposed restructuring, what job position(s) have taken over the responsibilities for the Mixed Waste and CWF facilities? Provide the qualifications for the individual(s). If the person is the Manager, Waste Disposal Operations, justify how one person can adequately manage all four facilities (LLRW, 11e (2), MW and CWF). Each area has unique disposal requirements that have to be followed for compliance and safety purposes.
3. Provide an explanation/justification for eliminating the HPT (RST) III positions.
4. Justify changing job titles for positions that are referenced in both RMLs and other documents (i.e. Standard Operating Procedures, RML Applications and Appendices).

Page 2

CQA/QC manual, etc ) Many of the job title changes were the only significant change, actual job function, responsibility and qualifications did not change For example, changing the title of Director of Health Physics to Manger of Health Physics and Safety (RSO) is trivial and unnecessary

If you have any questions please contact John Hultquist or Ryan Johnson at (801) 536-4250

Sincerely,

A handwritten signature in black ink, appearing to read "John Hultquist". The signature is fluid and cursive, with a large loop at the end.

John Hultquist, LLW/Uranium Mills Section Manager
