## NOTICE OF PUBLIC COMMENT

### **EnergySolutions, LLC Mixed Waste Facility**

#### **Treatment Variance Request for Cemented Uranium Extraction Process Residues**

The Director of the Division of Waste Management and Radiation Control is seeking public comment on a request for renewal of a site-specific treatment variance. The request was submitted by EnergySolutions LLC for its Mixed Waste Facility.

The Mixed Waste Facility proposes to receive cemented monoliths containing enriched uranium residuals. This material retains hazardous waste codes for barium, cadmium, chromium, lead and spent solvents. The generator has encapsulated the waste in concrete for security reasons.

EnergySolutions proposes to receive this waste for macroencapsulation in the Mixed Waste Landfill Cell rather than chemical stabilization, as required. This request is based on the fact that the waste has already been encapsulated in concrete at the generator's site. Treating this waste by the required method would mean grinding the waste and potentially exposing workers to unnecessary contamination.

The proposed treatment will further encapsulate the waste and protect it from contact with precipitation, thereby decreasing the potential of leaching.

EnergySolutions may receive up to 600 cubic feet of this waste. If approved, this variance will be in effect for one year.

Final disposal of the waste will occur in the Mixed Waste Disposal Cell at the EnergySolutions Mixed Waste Facility.

Documents related to this application can be reviewed at the following location:

Division of Waste Management and Radiation Control  
Multi Agency State Office Building  
195 North 1950 West, 2nd Floor  
Salt Lake City, Utah

The public comment period begins November 10, 2015 and will end on December 9, 2015. Comments should be addressed to Scott T. Anderson, Director, Division of Waste Management and Radiation Control, P.O. Box 144880, Salt Lake City, Utah 84114-4880.

A hearing on this variance may be held if requested.

This request will be presented as an information item only to the Waste Management and Radiation Control Board on November 12, 2015. No action will be taken by the Board on November 12, 2015 regarding this request.

Written comments will be accepted if received by 5:00 p.m. on December 10, 2015 and should be submitted to the address below. Comments may also be hand delivered to the Division address above and must be received by 5:00 p.m. on December 10, 2015.

Scott T. Anderson, Director  
Division of Waste Management and Radiation Control  
Department of Environmental Quality
