PUBLIC NOTICE
EnergySolutions LLC Mixed Waste Facility
Treatment Variance Request for Macroencapsulation of Lithium-thionyl chloride batteries

The Director of the Division of Waste Management and Radiation Control is soliciting public comment on a site-specific treatment variance request, submitted by EnergySolutions LLC, to treat one, 5-gallon bucket containing lithium-thionyl chloride batteries by macroencapsulation at its Mixed Waste Facility. This treatment method will isolate the waste from precipitation and potential leaching.

This request is based on the fact that, in order to deactivate the batteries, they would first need to be shredded. This method of treatment creates additional hazards to the employees without the assurance that the batteries, based on their size and shape, would be shredded. Final disposal of the waste will occur in the Mixed Waste Disposal Cell at the EnergySolutions Mixed Waste Facility.

Documents related to this request can be reviewed at the following location:

Division of Waste Management and Radiation Control
Multi Agency State Office Building
195 North 1950 West, 2nd Floor
Salt Lake City, Utah

The public comment period begins March 1, 2016 and will end on March 30, 2016. Written comments will be accepted by post or hand delivery if received by 5:00 p.m. on March 30, 2016, and should be addressed to:

Scott T. Anderson, Director,
Division of Waste Management and Radiation Control
P.O. Box 144880
Salt Lake City, Utah 84114-4880

A hearing on this variance may be held if requested. This request will be presented to the Waste Management and Radiation Control Board as an informational item on March 10, 2016.

Comments can also be sent by electronic mail to: dwmrcpublic@utah.gov. Comments sent in electronic format should be identified by putting the following in the subject line: public comment on EnergySolutions- lithium batteries. All documents included in comments should be submitted as ASCII (text) files or in pdf format.

For further information, please call Otis Willoughby of the Division of Waste Management and Radiation Control at (801) 536-0220. In compliance with the Americans with Disabilities Act, individuals with special needs (including auxiliary communicative aids and services) should call Dana Powers, Office of Human Resources, at (801) 499-2117 TDD (801) 903-3978.
