Lori Hunsaker  
Utah State Historic Preservation Officer  
300 Rio Grande Street  
Salt Lake City, Utah 84101

Dear Ms. Hunsaker:

Enclosed is a packet of information, prepared by Abajo Archeology, acting as consultants to Denison Mines. You may recall that Denison Mines operates a uranium ore processing mill near Blanding, Utah. The mill owners have been issued a license by the Division of Radiation Control to operate and a provision of the license requires that before construction activities, Denison Mines must demonstrate that they are complying with State or federal laws dealing with preservation of potential archeological sites.

Please provide me with your evaluation of the adequacy of plans prepared by Abajo Archeology to deal with the construction of a proposed new mill tailings disposal. I appreciate your help. If you need further information, please call me at 801-536-4250.

Sincerely,

  
Dane L. Finerfrock, Director
