RE: Klondike Flats Landfill Methane Gas Monitoring

Gentlemen:

On Thursday, September 27, 2012 I conducted an inspection of the municipal landfill at Klondike Flats near Moab. The objective of this inspection was to monitor for combustible gas. A Gas Alert Max XTIII atmospheric monitoring instrument was used. Prior to monitoring, the meter was calibrated according to the manufacturer's instructions. Monitoring was along the covered waste and at the entrance. No combustible gas was detected at any of the monitoring points.

If I can be of further assistance, feel free to call.

Sincerely,

David Ariotti  
Southeast District Engineer

RE: Klondike Landfill Methane Gas Monitoring

Gentlemen:

On Tuesday March 26, 2013 I conducted an inspection of the municipal landfill at Klondike Flats near Moab. The objective of this inspection was to monitor for combustible gas. A Gas Alert Max XTIII atmospheric monitoring instrument was used. Prior to monitoring, the meter was calibrated according to the manufacturer's instructions. Monitoring was done along portions of covered waste, at the entrance and operators shed.

No combustible gas was detected at any of the monitoring points.

If I can be of further assistance, feel free to call.

RE: Klondike Flats Class I Landfill Inspection

Dear Mr. Edwards:

The Klondike Flats Class I Landfill was inspected by representatives of the Division of Solid and Hazardous Waste on November 7, 2012. Enclosed is a copy of the inspection checklist.

At the time of the inspection, the face of the landfill was covered nicely, which will aid in controlling litter. The inspectors also documented a sizable accumulation of railroad ties just north of the scale house. These ties should be placed in the landfill as soon as possible. Also observed during the inspection were many five-gallon steel cans around the south and west side of the scale house area. Please ensure disposal or recycling of these cans as soon as possible.

If you have any questions, please call Phil Burns or Doug Taylor (801) 536-0200.

Sincerely,

Scott T. Anderson, Director  
Division of Solid and Hazardous Waste

**Four SWANA Certification courses are now online!** Featuring the same content available at SWANA Training centers and led by SWANA Faculty, these online courses offer you the opportunity to prepare for SWANA certification exams at home or your office. Purchase the entire series as a package or just purchase the sessions most relevant to you. The certification courses currently available are – Landfill Operations (MOLO), Recycling Systems and Composting Programs. The Transfer Station Systems course will be available in February 2012. Please visit [www.swana.org/training](http://www.swana.org/training) for more information.

**IMPORTANT - PLEASE READ**

Many states/provinces recognize SWANA as an approved training and continuing education provider. Attendance at SWANA national or chapter training does not guarantee credits will be accepted by your state/provincial certifying board. Your state/province may grant credits differently than the SWANA CEUs distributed for the event. ***It is important to consult your state/provincial certification board for details and any required approval prior to training. You are responsible for 30 hours of continuing education during your three-year certification.***

SOLID WASTE ASSOCIATION  
of North America

Mr. Thomas L. Edwards, S.C.  
Grand County  
Special District #1  
PO Box 980  
Moab, UT 84532

October 26, 2012

Dear Mr. Thomas Edwards:

The Solid Waste Association of North America (SWANA) is pleased to inform you that you have met the requirements for recertification. You are SWANA Certified as a **Landfill Manager**. As I am sure you know, SWANA Certification is a tremendous professional achievement, it places you amongst an elite group of solid waste professionals. This Certificate acknowledges that you have demonstrated your ability to meet the standards established by the SWANA Certification Board and maintained that standard.

Your SWANA Certification number is **62633**. The term of your SWANA recertification is for three years and will expire on **04/22/2016**.

As before, during the next three years you will be responsible for accumulating **30 Continuing Education Units (CEUs)** in order to be eligible for recertification. *To receive SWANA CEU credits individuals must submit a CEU form.* This form must be completed for each seminar, meeting, conference, etc. that you attend and sent into SWANA's Certification Department. As you turn in your CEU forms to SWANA's Certification Program during the three (3) year term, the CEUs will be maintained in SWANA's database system. Customized CEU Forms are available for chapter and national SWANA sponsored events. You should always make a copy of the completed form and keep the original for future reference.

At the end of your three-year term, you will need to recertify. To recertify, CEUs, application, and renewal fee must be met and may be requested *one (1) year prior* to **04/22/2016**. Recertification is not based solely on your demonstration of Continuing Education. Your job responsibilities will also be assessed to insure your continued eligibility for SWANA certification.

If you have any questions, please feel free to call SWANA at 1.800.GO.SWANA (467.9262) or 301-585-2898. Our Member Services representatives will answer your questions or direct you to our Certification experts.

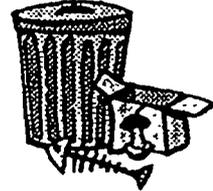

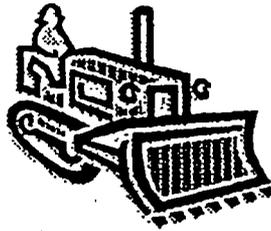

Thank you and welcome to being SWANA Certified.

Sincerely,

John A. Skinner

## Supervisor Training Acknowledgement

---

---

This is to certify that on the date shown, I completed supervisor training on the dangers of alcohol misuse and drug use. I am aware of the specific physical, behavioral, speech, and performance indicators of alcohol misuse and drug use that would require reasonable-suspicion testing.

I have received a minimum of 60 minutes of training on the reasonable-suspicion indicators of alcohol misuse and an additional minimum of 60 minutes on the reasonable-suspicion indicators of drug use.
