<i>* Site Specific Facility Name</i>	<i>*Number of Employees</i>

Land Developer	
<i>* Product or Service (What do you do?)</i>	

N/A	
<i>* Previous Facility Name(s)</i>	

7389	Rio Tinto
<i>*Industry SIC Code (4 digits)</i>	<i>Parent Company, if applicable</i>

5295 South 300 West, Suite 475	Murray	84107
<i>*Facility Street Address</i>	<i>City</i>	<i>Zip</i>

Same as above	Utah
<i>Mailing Address</i>	<i>State</i>

Piper Rhodes	Senior Environmental Associate
<i>Contact Name</i>	<i>Title</i>

801 743 4356	801 743 4659	Piper.Rhodes@kenecott.com
<i>Telephone</i>	<i>FAX</i>	<i>E-mail address</i>

\* If you are applying for multiple facilities designation, include an additional sheet providing the \* information for each facility to be covered.

---

## Environmental Permits

---

You are eligible to participate in Clean Utah if you are governed by federal, state, or local environmental regulations.

***For Permitted Business:***

List the environmental permits you hold. Attach additional sheets if more space is needed.

Type of Permit	Permit Number	Issuing Agency
Flood Control Permit	1870	Salt Lake County Public Works
Flood Control Permit	1973	Salt Lake County Public Works
Oquirrh Lake Dam Permit	UT53257	State of Utah, Department of Natural Resources Division of Water Rights
UPDES Storm Water General Permit for Construction Activities	UTR104313	Utah Department of Environmental Quality, Division of Water Quality
UPDES Storm Water General Permit for Construction Activities	UTR 101097	Utah Department of Environmental Quality, Division of Water Quality
Stream Channel Alteration Permit Bingham Creek	04-59-06SA	State of Utah, Department of Natural Resources Division of Water Rights
Stream Channel Alteration Permit Midas Creek	03-59-07SA	State of Utah, Department of Natural Resources Division of Water Rights

***For Small Business:***

In some cases, small businesses are exempted from permit requirements because of the size of the operation. They may still be required to meet certain federal or state environmental regulations, such as record keeping and pollution prevention steps.

Let us know, in the space below, which environment regulations apply to you and what steps you take to assure your operation meets applicable requirements.

---

## Compliance Eligibility Requirement

---

Clean Utah! seeks to reward those who are willing to go beyond what is required by rule or statute to prevent or reduce pollution. You are eligible to participate provided you:

- have not been in Significant Noncompliance of Drinking Water, Water Quality, or Hazardous Waste regulations, had a High Priority Violation of Air Quality regulations, had a Severity Level I, II, or III Violation of Radiation Control regulations, or any equivalent violation of any state, federal, or local environmental regulation in the past year and you have not had a total of three such violations in the past three years;
  
- have not had any criminal violation of environmental regulations for the past five years and are not currently the focus of an environmental criminal investigation.
  
- have no other open or unresolved violation(s)

Do you meet the compliance eligibility requirement?      Yes      No

**Note:**

Compliance history and status will be determined by the appropriate DEQ program(s), in consultation with EPA and the Local Health Department.

---

## Statement of Interest

---

In the space below, let us know why you are interested in becoming a Clean Utah facility and what you hope to accomplish in the program.

Becoming a member of the Clean Utah Program is consistent with Kennecott Land's commitment to be a leader in environmentally sensitive development. Kennecott Land is the only land developer in America to have achieved ISO 14001 certification. To achieve this certification, Kennecott Land developed an Environmental Management System, which includes establishing an Environmental Policy, complying with all relevant legal requirements and ensuring continuous improvement in environmental performance.

Daybreak, Kennecott Land's first community, is planned around sustainability principles and demonstrates our commitment to water and energy conservation, open space preservation, and developing enduring partnerships in the community.

Becoming a Clean Utah member is a key step in building a partnership with the state of Utah and the Department of Environmental Quality, also further demonstrating Kennecott Land's commitment to environmental stewardship.

---

## Terms and Conditions

---

Acceptance as a Clean Utah Entry Level participant entitles the facility to technical assistance in developing an EMS and to designation on the DEQ website and other publicity as one who is interested in and has started the *Clean Utah* process.

Each Clean Utah Entry Level participant will develop and implement an Environmental Management System (EMS). Several EMS models currently exist, including ISO-14001, and the applicant is free to select the model which best meets the facility's circumstances. Any model selected must include each of the 12 components outlined in the Clean Utah policy. (Available on line at [www.deq.utah.gov/cleanutah](http://www.deq.utah.gov/cleanutah))

To remain in the program, an EMS must be completed and operational within two years of being accepted into the program. Those who desire to move onto the Partner Level must document that the EMS has been implemented for one full cycle. In addition, two projects designed to significantly reduce or prevent pollution must be proposed. Ideally, these projects should be based on aspects identified in the EMS process. (Additional information is available online.)

*Clean Utah* participants agree to remain in compliance with applicable environmental regulations. Failure to do so may be grounds for removal.

---

### Certification Statement

---

*(to be signed by a senior facility manager)*

I have read and agree to the terms and conditions for participation in the Clean Utah program as described in the Clean Utah policy and application. I have personally examined and am familiar with the information contained in this application and it is, to the best of my knowledge and based on reasonable inquiry true, accurate and complete and I have no reason to believe the facility would not meet all program requirements. I agree that Utah DEQ's decision whether to accept participants into or remove them from Clean Utah is wholly discretionary.

I am a senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

Signed
